Dear Mr. Brown:

Enclosed is a brief report on John Brown of Washington County, Pennsylvania. We have talked several times about the difficulties with this line. Nothing has changed, but there are a few items to contribute to the cause. There is so little that early.

Another problem is separating the various John Browns. For example, in 1783 in Washington County there were the following John Browns:

John Brown, single, Bethlehem Township

John Brown in Cecil Township. Also a Joseph Brown.

John Brown, hatter, Greene Township. Also a William Brown

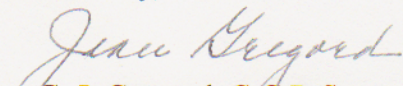

John Brown (yours) with 125 acres in Nottingham Township

(There is a Nathaniel Brown in Strabane Township and a Joseph Brown in Fallowfield Township. There were three John Browns in the southern part of what is now Allegheny County.)

Have any good ideas? Let me know.

Well, it was good to hear from you. I shall keep looking.

Sincerely,

G. J. Gregord, C.G.R.S.
